ANNEX

ANNEX

to the

COMMISSION IMPLEMENTING DECISION

**partially granting an authorisation under Regulation (EC) No 1907/2006 of the
European Parliament and of the Council to Betz-Chrom GmbH for a use of chromium
trioxide**

ANNEX

The applications covered by the authorisation bearing number REACH/24/24/0 are listed in the following table:

N	Application	Sectors
1	Axially symmetrical components with sliding contact to counterpart	Aerospace, agricultural machinery, automotive, construction industry and infrastructure, defence technology, drive systems technology, energy industry, food and beverage industry, hydraulics, mechanical engineering, medical technology, metal industry, packaging industry, pharmaceutical industry, plastics technology, printing industry, recycling and waste industry, test benches/rigs, textile industry, tool engineering
2	Extrusion and injection moulding screws (including tips, moulds and mandrels) for plastics	Mechanical engineering, plastics technology
3	Extrusion and injection moulding screws (including tips, moulds and mandrels) for metals	Mechanical engineering, metal industry
4	Components for conveying abrasive, highly viscous, corrosive or aggressive media	Automotive, chemical industry, construction industry and infrastructure, food and beverage industry, mechanical engineering, plastics technology, textile industry, wastewater treatment
5	Refurbishment of chrome coated components	Aerospace, agricultural machinery, automotive, chemical industry, construction industry and infrastructure, defence technology, drive systems technology, electrical engineering, energy industry, food and beverage industry, hydraulics, mechanical engineering, medical technology, metal industry, moulding technology, packaging industry, pharmaceutical industry, plastics technology, printing industry, pumps industry, recycling and waste industry, test benches/rigs, textile industry, tool engineering, wastewater treatment
6	Components with complex geometries with sliding contact to counterpart	Aerospace, agricultural machinery, automotive, construction industry and infrastructure, defence technology, energy industry, food and beverage industry, hydraulics, mechanical engineering,

		medical technology, metal industry, packaging industry, pharmaceutical industry, plastics technology, printing industry, recycling and waste industry, textile industry, tool engineering
7	Aerospace parts subject to standards	Aerospace
8	Printing and glue rollers	Food and beverage industry, packaging industry, printing industry
9	Mechanically stressed components in contact with food	Food and beverage industry, packaging industry, pharmaceutical industry
10	Components requiring adhesive surfaces	Automotive, construction industry and infrastructure, defence technology, energy industry, food and beverage industry, mechanical engineering, medical technology, metal industry, packaging industry, pharmaceutical industry, printing industry, recycling and waste industry, test benches/rigs, textile industry, tool engineering
11	Component with sliding and/or pressure contact to counterpart or media	Automotive, construction industry and infrastructure, defence technology, mechanical engineering, moulding technology, pharmaceutical industry, plastics technology
12	Connection elements in contact with abrasive and corrosive media	Construction industry and infrastructure, mechanical engineering, metal industry, plastics technology, pumps and valves industry, textile industry
13	Mechanically stressed components with electronic contact	Aerospace, automotive, electrical engineering, energy industry, mechanical engineering
14	Components with leverage	Automotive, construction industry and infrastructure, hydraulics, mechanical engineering, metal industry
15	Nozzles for extrusion and injection moulding screws	Mechanical engineering, metal industry, plastics technology
16	Components with environmental exposure (not installed inside) with frictional contact to counterpart	Aerospace, automotive, construction industry and infrastructure, defence technology, energy industry, hydraulics, mechanical engineering, pumps and valves industry
17	Casings	Aerospace, automotive, hydraulics, mechanical

		engineering, medical technology, metal industry, plastics technology, printing industry, textile industry
